FUN BY THE NUMBERS

If you like puzzles, this mind-bending conundrum will have you hooked from the moment you square off. So sharpen your pencil and put your sudoku savvy to the test.

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Intermediate level.
